Terms and Conditions

Customers are requested to state mode of shipping, express or freight, and by what route. When none is given, we exercise our judgment, but in no case do we assume responsibility after goods are shipped unless for our own mistakes.

While we exercise the greatest care to have all trees, shrubs and plants sold by us genuine and reliable, and hold ourselves prepared to replace, on proper proof, any that may prove otherwise, we do not give any warranty, expressed or implied, and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

All claims for errors or deficiencies must be made immediately upon receipt of the goods.

Terms: Cash with order from unknown parties or satisfactory references.

Five hundred will be furnished at the thousand rate; fifty at the hundred rate, and five at the ten rate.

The prices quoted are for our selection and are effective until June 1st, 1928. Where stock is selected by customers it will be charged for in accordance with its value.

Shipment in bulk will be packed at no charge. Where packing is done in boxes or bales, a charge will be made to cover the cost of material used.

A certificate of inspection from the State Entomologist will accompany each shipment.

The Spring shipping season usually begins here about March 15th, and the fall season for evergreens, August 15th. Deciduous stock, October 15th.

Eatontown is on route No. 4 of the New Jersey State Highways, and about forty miles from New York on the Southern Division of the C. R. R. of N. J.
IN APPRECIATION.

The year 1927 rounded out thirty continuous years of progress since the establishment of the Shrewsbury Nurseries, the last year being the greatest in our history, with a gain in volume of business of more than ten per cent over our previous best year.

It is gratifying to us to note that this success is due mainly to the support of a large number of buyers whom it has been our pleasure to serve for many years, and to them we extend our hearty thanks.

We have no solicitors, this Trade List being the only agent we employ, depending solely on the quality of our stock building up lasting friendships in our wholesale and retail trade. That our stock does make us friends is evident by the way old and new customers stay with us.

We extend a cordial invitation to all to visit our Nurseries, and to those who are unable to do so, we will gladly furnish addresses where an unbiased opinion of our stock may be obtained.

STEELE'S SHREWSBURY NURSERIES.

Deciduous Trees

We offer only strictly first-class trees which have been several times transplanted, and have straight stems and well developed heads.

For large specimen trees for immediate landscape effects, ask for special quotation.

ACER dasycarpum (Silver Maple).

</table>
Deciduous Shrubs

Our shrubs are grown 2 feet or more apart in 4 feet rows on rich ground. They are a vigorous lot with unusually bushy development.

All orders dug immediately prior to shipping. Our shrubs are not trenched in anticipation of sales, or cellar stored.

Evergreen Trees

Our evergreens are transplanted and trimmed as frequently as their individual needs require to produce symmetrical heavy plants which can be safely handled, our stock at this time being unusually good.

Prices quoted include digging with ball and burlapping.

**Broad-leaved Evergreens**

All of our broad-leaved evergreens are transplanted in nursery rows, including dwarf Box; this enables us to allow each plant ample room and insures bushy development.

Our Azaleas and Buxus are unusually fine and we will gladly send samples on request.

**AZALEA amoena** (Purple-red Japanese Azalea).

<table>
